	Page 13
1 Q	Okay. But you do believe based on your e-mail I
2	take it that it referred to an opening in an
3	implementation specialist position?
4 A	That's what I'm saying in this e-mail so
5 Q	Okay. And then in the third paragraph you
6	summarize your experience with ATX in the capacity
7	of implementation specialist?
8 A	Yes.
9 Q	Were the job duties at ATX as an implementation
10	specialist the same as your job duties at Tyler as
11	an implementation specialist?
12 A	Yes.
13 Q	So these different duties that you list here
14	let's just go over each one of them. You say in
15	representing your job duties at ATX, the first one
16	is to gather data requirements from clients. Is
17	that something you did at Tyler as an
18	implementation specialist?
19 A	Yes.
20 Q	Analyzing their business needs, that's again your
21	description of a function that you performed at
22	ATX. Is it your testimony that you also performed
23	that function as an implementation specialist at
24	Tyler?
25 A	Yes.

		Page 14
1	Q	And what about installation of software; that again
2		is one of the items you've used to describe your
3		job duties at ATX. And is that something that you
4		did as an implementation specialist at Tyler?
5	А	Yes.
6	Q	I take it the same is with respect to the next
7		entry which is train users and provide Well, let
8		me just start with train users. You trained users
9		while you were at Tyler as well; correct?
10	А	Yes.
11	Q	And then providing support during the
12		implementation phases; is that something that you
13		did at Tyler as well as ATX?
14	A	Yes.
15	Q	To whom did you While you were an implementation
16		specialist, to whom did you report at ATX?
17	A	Kevin Hogan.
18	Q	And then the next sentence says in describing again
19		your position at ATX, this was to include traveling
20		to various sites and working with end users in
21		person while documenting and meeting project
22		milestones.
23		I take it that's also a description
24		of functions you performed as an implementation
25		specialist at Tyler?

		Page 15
1	А	Traveling to various sites, yes. Working with end
2		users in person, yes. Documenting and meeting
3		project milestones, yes.
4	Q	Okay. What was I see there looks like a
5		description here, but just in your own words today
6		what was your reason for leaving ATX?
7	А	Uncertainty about the company after the it was
8		bought out.
9	Q	Who bought it out?
10	А	I can't remember.
11	Q	Was that at the time when there was this split that
12		you mentioned between
13	A	Correct.
14	Q	between ATX and Tax Solver?
15	А	Correct.
16	Q	Were you How were you paid as an implementation
17		specialist at ATX?
18	A	Hourly.
19	Q	Was that the case the entire time?
20	А	Yes,
21	Q	So you were paid overtime for hours that you worked
22		in excess of 40 while you were at ATX?
23	А	Yes.
24	Q	Did you receive any compensation other than your
25		hourly wage while you were employed at ATX as an

		Page 25
1	A	Sixteen I think there was a 16 billable day goal.
2		There and 16 may not be accurate, but there was a
3		billable day goal so
4	Q	If I said it was 13, does that ring a bell?
5	A	Thirteen maybe.
6		MS. HOLMES RAY: Object to the form.
7		THE WITNESS: It could be. I'm not sure.
8	BY	MR. MCKEEBY:
9	Q	Okay, you're just not sure.
10	А	I'm not sure.
11	Q	You know there were certain requirements
12	A	There was a billable day goal.
13	Q	And what constituted a what made a day billable
14		as opposed to non-billable?
15	A	Going to a client site and providing services.
16	Q	Okay. So in other words, when you were at the
17		office in Falmouth, it was not a billable day?
18	А	Unless you were providing training via the phone.
1.9	Q	Okay. So you said you would have to back out the
20		number of days that you would have spent on average
21		approximately at the office at Falmouth, and I
22		think I kind of interrupted you while you were
23		maybe making that calculation and got off on a
24		tangent, but can you do that now?
25	A	I would say on average per month five days.

-			
			Page 26
	1	Q	And then the rest of the days were spent on the
	2		road remotely at customer sites; correct?
	3	А	On the road at customer sites or remotely at customer
	4		sites.
	5	Q	And when you say remotely at customer sites, that
	6		means you would be in the office at Falmouth doing
	7		remote training?
	8	A	Correct.
ł	9	Q	Whenever you did remote training, it would have
	10		been from your office at Falmouth?
	11	A	Yes, for until I moved to Wisconsin.
	12	Q	Okay. Then you did remote training from your home?
	13	A	From my home office, correct.
	14	Q	What determined, if you know, whether or not you
	15		did remote training versus live training at the
	16		customer's site?
	17	A	I don't know. Those days were told to me.
	18	Q	They were told to you in the sense that you were
	19		told that either you needed to be at the customer's
	20		location or you were going to be doing training
	21		remotely?
	22	A	Correct.
	23	Q	When you did the training remotely, was it WebEx
	24		type training where you were using the internet?
	25	A	Yes.

		Page 27
1	Q	And the telephone I take it as well?
2	A	Correct.
3	Q	It wasn't videoed?
4	A	No.
5	Q	And who would tell you whether or not the training
6		was remote or at the actual customer site?
7	A	Jane.
8	Q	And how would she communicate that to you, and by
9		that I mean, to be a little more specific, was this
10		something that she would tell you on a day-to-day
11		basis, did you have like a monthly calendar, or
12		some other method to tell you essentially where you
13		were supposed to be on a particular day?
14	A	We had a monthly schedule.
15	Q	And Jane prepared that I take it?
16	A	Yes.
17	Q	And so I take it that that monthly schedule might
18		have Can you think of a customer that you did
19		an example of a customer that you did training on
20		site?
21	А	Yes.
22	Q	Okay, give it to me.
23	A	Indianapolis Public Schools.
24	Q	Okay. So on this schedule there would be periods
25		of time in which you were to be at the Indianapolis

1		
		Page 28
1		Public School customer site?
2	A	Correct.
3	Q	And just for ease of discussion, when Was that
4		at the school actually or somewhere else?
5	A	At the business office.
6	Q	Business office, okay. And what would be typical
7		as to the amount of days you were scheduled to be
8		at the business office? Again, if it's helpful
9		using this example of the Indianapolis Public
10		Schools.
11	А	Days per week? Days per month?
12	Q	Let's start with days per week.
13	А	Three and a half, four.
14	Q	Now, when you did this work for the Indianapolis
15		Public Schools, was that while you were living in
16		Wisconsin or in Maine or both?
17	А	That is not the reason I left either place.
18	Q	No, no, not the reason, but while you were doing
19		that work at Indianapolis Public Schools and
20		visiting their business office I take it you
21		visited their business office more than once?
22	А	Yes.
23	Q	Okay. And so my question is was that while you
24		were working in Maine or while you were working out
25		of your office in Wisconsin

	7	Page 29
1	А	Both.
2	Q	or both? Okay.
3		So the monthly schedule comes out.
4		It says, let's say for example, that you're to
5		spend Tuesday through Friday of a particular week
6		in the business office of the Indianapolis Public
7		Schools. Do you Does it tell you anything else
8		on the schedule as to what you're going to be doing
9		on those days?
10	А	What subjects, whether it's GL training or fixed
11		asset training, accounts payable training.
12	Q	GL, general ledger?
13	А	Yes.
14	Q	And so these are just the different applications of
15		the Munis Financial software package that you would
16		be providing training on?
17	А	Correct.
18	Q	So the monthly schedule would tell you which of
19		those applications would be trained on at
20		particular times?
21	А	Correct,
22	Q	Would you have to have telephone communications
23		with anyone at the business office to set any of
24		this up, or had that already been done?
25	A	Jane scheduled that.
2.0	- 1	Jane Johnane Enat.

Page 30 1				
2 A Yes. 3 Q You would know who to ask for? 4 A Based on the contact list and the project plan, yes. 5 Q So the project plan is a separate document that you would have been provided? 7 A Yes. 8 Q And that would have your contact information? 9 A Correct. 10 Q So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not				Page 30
3 O You would know who to ask for? 4 A Based on the contact list and the project plan, yes. 5 Q So the project plan is a separate document that you would have been provided? 7 A Yes. 8 Q And that would have your contact information? 9 A Correct. 10 Q So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		1	Q	So you would just show up?
A Based on the contact list and the project plan, yes. O So the project plan is a separate document that you would have been provided? A Yes. And that would have your contact information? A Correct. O So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? A Yes. You wouldn't have any telephone communications talking about the type of training or A No. P Correct. No. T Q the scheduling or anything like that? A No. T Q Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		2	А	Yes.
So the project plan is a separate document that you would have been provided? 7 A Yes. 8 Q And that would have your contact information? 9 A Correct. 10 Q So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		3	Q.	You would know who to ask for?
would have been provided? A Yes. A Yes. And that would have your contact information? A Correct. So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? A Yes. Yes. Vou wouldn't have any telephone communications talking about the type of training or No. A No. The scheduling or anything like that? A No. If that was done it would have been done by Jane? Correct. Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		4	А	Based on the contact list and the project plan, yes.
A Yes. Q And that would have your contact information? A Correct. Q So was it simply a matter of when you would arrive at the business office, you would ask for that contact person? A Yes. Yes. You wouldn't have any telephone communications talking about the type of training or A No. No. The scheduling or anything like that? No. If that was done it would have been done by Jane? Correct. Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		5	Q	So the project plan is a separate document that you
8 Q And that would have your contact information? 9 A Correct. 10 Q So was it simply a matter of when you would arrive 11 at the business office, you would ask for that 12 contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications 15 talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		6		would have been provided?
9 A Correct. 10 Q So was it simply a matter of when you would arrive 11 at the business office, you would ask for that 12 contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications 15 talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		7	А	Yes.
10 Q So was it simply a matter of when you would arrive 11 at the business office, you would ask for that 12 contact person? 13 A Yes. 14 Q You wouldn't have any telephone communications 15 talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		8	Q	And that would have your contact information?
at the business office, you would ask for that contact person? A Yes. You wouldn't have any telephone communications talking about the type of training or A No. Public And No. If that was done it would have been done by Jane? Correct. Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		9	А	Correct.
contact person? Yes. You wouldn't have any telephone communications talking about the type of training or No. No. Respectively. If the scheduling or anything like that? No. If that was done it would have been done by Jane? Correct. Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		10	Q	So was it simply a matter of when you would arrive
Yes. You wouldn't have any telephone communications talking about the type of training or A No. No. If A No. If that was done it would have been done by Jane? Correct. Did you have to engage in any again, kind of returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		11		at the business office, you would ask for that
14 Q You wouldn't have any telephone communications 15 talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		12		contact person?
talking about the type of training or 16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		13	A	Yes.
16 A No. 17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		14	Q	You wouldn't have any telephone communications
17 Q the scheduling or anything like that? 18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		15		talking about the type of training or
18 A No. 19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not	l	16	А	No.
19 Q If that was done it would have been done by Jane? 20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		17	Q	the scheduling or anything like that?
20 A Correct. 21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		18	Α	No.
21 Q Did you have to engage in any again, kind of 22 returning to this not hypothetical but this example 23 that you provided of visiting the business office 24 of the Indianapolis Public Schools, and if it's not		19	Q	If that was done it would have been done by Jane?
returning to this not hypothetical but this example that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		20	А	Correct.
that you provided of visiting the business office of the Indianapolis Public Schools, and if it's not		21	Q	Did you have to engage in any again, kind of
of the Indianapolis Public Schools, and if it's not		22		returning to this not hypothetical but this example
1		23		that you provided of visiting the business office
25 a good example for some particular reason we can		24		of the Indianapolis Public Schools, and if it's not
		25		a good example for some particular reason we can

		Page 31
1		talk about that, but my question was going to be
2		prior to going on that trip, was there any type of
3		preparatory work that you would have to do specific
4		to that project?
5	A	Reviewing what subjects were going to be covered,
6		making sure I was prepared to train on those, that I
7		had the knowledge in those subjects and on those
8		modules, and also phoning in making travel
9		arrangements.
10	Q	You used the term modules. Is that the same as an
11		application?
12	A	Correct.
13	Q	Okay. And that's fine. I just want to make sure
14		I'm on the same page. So by reviewing the
15		subjects, you would you mean you would review
16		what was on the monthly schedule as to what
17		subjects were being trained?
18	A	Correct, and then further, the steps that needed to
19		be trained upon.
20	Q	And when you say the steps that needed to be
21		trained upon, was that something that was in the
22		monthly schedule?
23	A	It's in the project plan.
24	Q	Okay. And when you say the steps that need to be
25		trained on, what does that mean? Is that

D ₀	
Pac	ge 32
1 particular aspects of the module that need to b	е
2 focused on, or do you mean something other than	
3 that?	
4 A Correct, features, makeup of if you're talki	ng
5. about I'm going to go train on journal entries,	then
I need to, you know, make sure that I talk abou	t and
7 train on general ledger accounts and dates and	5
8 debits, credits and dollar amounts. I mean the	re's
9 certain training items, bullet points, that go	with
10 every subject.	
11 Q Okay. And that would have been on the project	
12 plan?	
13 A Yes.	
14 Q How I've never seen a project plan. Is it l	ike
15 a notebook or a couple of pages?	
16 A It's an Excel document. Jane's project plans a	re
17 Excel documents.	
18 Q Okay. How long a document?	
19 A How many pages?	
20 Q Yeah.	
21 A It depends on how big the client is	
22 Q Fair.	
23 A how many subjects they have, modules.	
24 Q Okay. But you would review it to ascertain which	ch
25 particular features were being covered on each	of

		Page 33
1		the modules on which you were training?
2	А	Correct.
3	Q	And you also said that if you you wanted to make
4		sure that you had knowledge of the particular
5		modules on which you were training; is that right?
6	А	Correct.
7	Q	And were there instances where you did not have
8		knowledge of a particular module?
9	A	Yes.
10	Q	What would you do in that situation?
11	A	Read documentation.
12	Q	What kind of documentation do you mean?
13	A	Software documentation. If it was particularly after
14		an upgrade or a new release, maybe going back to
15		release notes and reviewing.
16	Q	And this type of work you would perform during your
17		office days?
18	A	If I had office days. If I didn't it was at home.
19	Q	Now, when you would go to the customer's site,
20		would you bring anything with you in terms of
21		well, what would you bring with you? If you're
22		arriving at the customer site and again, I'll
23		use the Indianapolis Public Schools as an example.
24		You've you know your contact, you've read the
25		project plan, to the extent that you've needed to

		Page 34
1		brush up on any of the particular modules you've
2		done so, and you're arriving on the Tuesday, let's
3		say hypothetically, that you're scheduled to be at
4		the business office of the Indianapolis Public
5		School System, and you ask for your contact person.
6		Do you have anything with you related to the
7		project?
8	Α	My laptop which has the project plan, the documents.
9	Q	So it has the project plan on it, and when you say
10		the documents
11	А	Documentation, user documentation that Munis has for
12		their modules. You know, often times you have an
13		internet connection so if you need to get to a
14		website.
15	Q	Okay. Now, at this point in the process of selling
16		the software by Tyler to the customer, the
17		customer's already entered into a contract to
18		purchase the software; correct?
19	A	Yes.
20	Q	And the customer's data that was in its previous
21		software has already been converted to Tyler's
22		systems, to Munis system?
23	A	That depends on what type of training day I'm there
24		for, at what point in the implementation I'm there.
25	Q	And tell me a little bit more about that and let me

		Page 35
1		ask you a specific question. What would it depend
2		on as to whether or not what different types of
3		training would you provide that would differ
4		depending on whether or not a conversion had
5		already taken place?
6	A	If I'm there to set up user security, that's
7		happening very early on and is not doesn't require
8		data to be in the system.
9	Q	Okay.
10	A	However, if you're doing general ledger training,
11		there may need to be the chart of accounts converted
12		into the system.
13	Q	User security training, that would simply be
14		training as to maintaining the passwords and other
15		security devices associated with the software?
16	A	And permissions.
17	Q	But the data from the company's the client's old
18		system need not be converted at that point?
19	А	No.
20	Q	That's a true statement?
21	А	Yes.
22	Q	Do I understand correctly that Munis while you were
23		employed with Tyler had a separate department that
24		did the actual conversion of the information?
25	А	Yes.

Page 36 1 Q You didn't convert the information as an implementation specialist at Munis? 3 A No. 4 Q What was that? Was it called the conversion department? 6 A I can't remember what they were called. 7 Q But it was a particular department? 8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction? What would you guys would you be would they
implementation specialist at Munis? A No. What was that? Was it called the conversion department? A I can't remember what they were called. But it was a particular department? A It wasn't me. I don't know. I don't know. That's fine. Okay. Not employees that you would have interacted with on a regular basis? A Define on a regular basis. I mean during during a conversion? Yeah. Yes. On what What was the context of the interaction?
3 A No. 4 Q What was that? Was it called the conversion 5 department? 6 A I can't remember what they were called. 7 Q But it was a particular department? 8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
4 Q What was that? Was it called the conversion 5 department? 6 A I can't remember what they were called. 7 Q But it was a particular department? 8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. Not employees that you would have interacted with on a regular basis? A Define on a regular basis. I mean during during a conversion? Yeah. Yes. On what What was the context of the interaction?
6 A I can't remember what they were called. 7 Q But it was a particular department? 8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
7 Q But it was a particular department? 8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
8 A It wasn't me. I don't know. I don't know. 9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
9 Q That's fine. Okay. Not employees that you would 10 have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
have interacted with on a regular basis? 11 A Define on a regular basis. I mean during during a conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
11 A Define on a regular basis. I mean during during a 12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
12 conversion? 13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
13 Q Yeah. 14 A Yes. 15 Q On what What was the context of the interaction?
14 A Yes. 15 Q On what What was the context of the interaction?
15 Q On what What was the context of the interaction?
16 What would you guys would you be would they
10 what would you gays would you se would energ
17 have questions for you?
18 A On the phone. I would be asking them why data didn't
19 come in, wasn't there, was missing, was wrong.
20 Q And that would be something that you would have
21 detected during the course of your training?
22 A Yes.
23 Q And when you're doing the actual training, I take
24 it let's put security training to one side, but
25 when you're doing the general ledger training or

Page 37 any of the other type of training on the Munis Financial software modules, you are actually providing in the at least when you're on site live training to the users? A Yes. Are you comfortable with me calling it a classroom-type setting? A In some cases it's a classroom and if there's enough users to qualify as a classroom. Right. A In some it may be one on one And that A with A Correct. Page 37 It could be the size of the customer? The could also be the subject on which you're training. Because in the latter example, the subject on which you were training might have been had application only to a limited number of users? Correct.	r		
Financial software modules, you are actually providing in the at least when you're on site live training to the users? A Yes. Are you comfortable with me calling it a classroom-type setting? A In some cases it's a classroom and if there's enough users to qualify as a classroom. Right. In some it may be one on one And that A with Sorry, go ahead. I didn't mean to interrupt. A with a user. And that would depend on the size of the customer? A It could be the size of the customer. It could also be the subject on which you're training. Because in the latter example, the subject on which you were training might have been had application only to a limited number of users?			Page 37

EXHIBIT 4

		Page 38
1		again, putting the user security training to one
2		side and talking now about the Munis Financial
3		modules, the training would be done on the system
4		as opposed to like on a PowerPoint in which you're
5		teaching. You have your laptop, the user has the
6		laptop, and you're training on the modules while
7		the user is on the system?
8	А	Yes.
9	Q	So each person in the training, whether or not it
10		be one or two or 12, just using hypothetical
11		numbers, would have a laptop?
12	А	Not always, depending on resources at the client
13		site.
14	Q	But they would be looking at a laptop maybe that
15		was being operated by someone else?
16	А	Correct, on a screen.
17	Q	Okay. So you would Would Your laptop would
18		be projected on a screen typically?
19	Α	Sometimes mine; sometimes the client's.
20	Q	Okay. When you did training on a particular
21		module, and maybe we can take general ledger as an
22		example if it's not a good example, you can let
23		me know but how would you go about conducting
24		the training, how would you know what to do?
25	А	General ledger training probably not the best because

		Page 39
1		it's broad.
2	Q	Okay, so give me a better example.
3	А	A more concise version would be requisition training,
4		decentralized requisition training.
5	Q	Just for my benefit, what does requisition mean in
6		that context?
7	А	Purchase requisition.
8	Q	Okay. So that's a better example. What would
9		you How did you know how to train on that
10		software, the purchasing or rather the
11		requisition trainings I'm sorry the
12		requisition software is a better way to call it I
13		think.
14	А	Read the documentation surrounding the module, know
15		how the client's using it.
16	Q	And knowing how the client is using it would come
17		from the project plan?
18	A	Project notes in the project plan, yes. Also from
19		walking through the configuration options for them:
20		Security, things like that.
21	Q	What does the term configuration option mean?
22	A	Chart of accounts. I mean general ledger accounts
23		that they have in the system; how many levels of
24		approvers they have, approval chains, that have been
25		set up previously.

		Page 40
1	Q	So that levels of approval means who gets what
2		information and who has to approve
3	Α	Well, specific to requisitions. Requisitions went
4		through the system electronically for approval. In a
5		day previous to a decentralized training class, we
6		would have had a training class with the purchasing
7		department on how to enter an approver and how to set
8		up an approval chain.
9	Q	Okay.
10	А	Wherein, we would have learned from them how they
11		were going to set it up.
12	Q	So that wouldn't have been something that you would
13		have learned in the project plan. That would have
14		been something you would have gathered from the
15		client in this sort of initial training?
16	A	If I didn't do the training on the approval chain, it
17		would be documented so that I would have that
18		information.
19	Q	But sometimes you would do the training on the
20		approval chain?
21	А	Yes.
22	Q	So in that case I mean you might document it, but
23		you would also know it based on the training that
24		you had performed?
25	А	Correct.

		Page 41
1	Q	And in the context of requisition software, levels
2		of approval means what particular individuals have
3		approval rights as to particular purchases?
4	А	Correct.
5	Q	And obviously you need to know that from the
6		customer to be able to train the users?
7	А	Yes.
8	Q	Are you familiar with the term systems analysis?
9	А	Yes.
10	Q	I'm sorry. There's a different term that I'm going
11		to ask you about. Something called analysis
12		sessions?
13	А	Yes.
14	Q	Does an analysis session as it was used at Tyler
15		Munis refer to this initial type of training that
16		you just testified to concerning in this example
17		the approval chain with respect to requisition
18		software?
19	А	What analysis session means to me is that each client
20		is different but the software remains the same, so
21		it's determining how the client's going to use the
22		software of the prescribed ways you can use it.
23	Q	Is an analysis session something that you performed
24		as an implementation specialist?
25	А	I conducted training sessions where we decided which

		Page 42
1		way the software was going to be used.
2	Q	And would one example have been in the training
3		that you just mentioned about the requisition
4		software?
5	А	Training users on how to enter an approver would lead
6		itself to finding out how many approval levels
7		they're going to have and who those are going to be,
8		yes.
9	Q	So that involves a dialogue with the client?
10	А	There's a training aspect to show them how to set
11		that up because they set up their data, and, yes,
12		information being shared with them on instructions I
13		guess on how that could be set up.
14	Q	So was that an example then of an analysis session?
15	А	That's an example of an analysis session.
16	Q	There's a training component but there's also an
17		analysis component?
18		MS. HOLMES RAY: I object to the form.
19		THE WITNESS: I Define analysis I
20		guess. I explained that there's a training
21		component saying this is how you enter an approver,
22		this is how it's going to show up, this is how it's
23		going to govern a requisition.
24	BY M	MR. MCKEEBY:
25	Q	Right, right. That's what I understand to be

		Page 43
1		training. And I'll tell you what I understand to
2		be analysis. Analysis, as I understand it, and I
3		need you to tell me if you agree, but the analysis
4		component of that process if you will is
5		determining what the chart of accounts is and
6		what who has particular levels of approval.
7	A	No. Any When you walk into a municipality, their
8		purchasing departments already have prescribed
9		approval levels, dollar amounts, department heads.
10		They have an approval structure for purchasing
11		already in place. I guess in an analysis session
12		it's translating what may be in a piece of paper
13		somewhere so that it works in the system
14		electronically.
15	Q	Okay. So the analysis session as we've been
16		describing it doesn't necessarily relate to levels
17		of approval. It relates to how particular
18		information is going to be used in the Tyler
19		software?
20	A	How the levels of approval are going to get into the
21		Tyler software.
22	Q	Okay. So that type of training and analysis would
23		have been performed either by you or someone else
24		prior to the training of the users on how to
25		operate the general ledger software or application?

		Page 50
1		more than one implementation specialist dispatched
2		to a particular customer location to do training on
3		a particular module?
4	A	That would depend on the size of the client and the
5		breadth of the services that they purchased from us.
6	Q	So and I guess that would also be your answer if
7		I asked you how long a particular implementation
8		took?
9	А	Correct.
10	Q	What could it vary from?
11	А	Two months to two years.
12	, Q	Depending on the size of the client and the number
13		of applications that were purchased?
14	A	Among other things, yes.
15	Q	What other things?
16	A	Conversion issues, client issues, budget issues.
17	Q	Sure. And am I right that a client purchasing the
18		Munis Financial software could purchase particular
19		applications, that is, they might purchase the
20		general ledger software but they might not purchase
21		the decentralized requisition software for example?
22	А	Correct.
23	Q	And you weren't involved in that aspect of the
24		sales process. That would have been done prior to
25		you being on the scene as an implementation

		Page 51
1		specialist?
2	А	Correct.
3	Q	Were you Did you have any responsibilities with
4		respect to supporting the software once it once
5		your training had been completed and the customer
6		had gone live? Did they call you and say, hey, you
7		know, I'm not I have questions about this, or
8		was there a separate department for that?
9	Α	After their formal transition to support, there was a
10		support department.
11	Q	And by that response it makes me think that there
12		was some period where there was prior to there
13		being a formal transition to support. Is that what
14		you meant to convey?
15	А	Correct, formal transition to support happens after a
16		period of time after the client has gone live.
17	Q	Okay. What period of time was it or did that
18		depend too?
19	A	It depends.
20	Q	Okay. So there's a transition period then before
21		they are transferred to support?
22	A	Yes.
23	Q	They being the client?
24	A	Yes.
25	Q	And that and during that transition period, if

the client has questions about particular aspects of the software do they call you or someone else or how did that work? A They would. They would call you? A They would call me. They might call the implementation specialist. They might call the project manager. So would you typically Who from the client would give would call you in these instances during this transition period where they would have questions about the software? Would that be one of the users that you had trained, or would it be someone at a different level or an IT person? It could be anyone. It depends on the size of the client again. But it could be if it's a smaller client the actual user asking a day-to-day type question? In any case it's going to be
of the software do they call you or someone else or how did that work? They would. They would call you? They would call me. They might call the implementation specialist. They might call the project manager. So would you typically Who from the client would give would call you in these instances during this transition period where they would have questions about the software? Would that be one of the users that you had trained, or would it be someone at a different level or an IT person? They would call you? They might call the would the client would give would call you in these instances during this transition period where they would have questions about the software? Would that be one of the users that you had trained, or would it be someone at a different level or an IT person? They would call you? They mould call you? They might call the project would the client apair. They might call the client would give would it be someone at a different level or an IT person? They would call you?
how did that work? A They would. They would call you? A They would call me. They might call the miplementation specialist. They might call the project manager. So would you typically Who from the client would give would call you in these instances during this transition period where they would have questions about the software? Would that be one of the users that you had trained, or would it be someone at a different level or an IT person? It could be anyone. It depends on the size of the client again. 16 client again. 17 Q But it could be if it's a smaller client the actual 18 user asking a day-to-day type question? 19 A In any case it's going to be
17 Q But it could be if it's a smaller client the actual 18 user asking a day-to-day type question? 19 A In any case it's going to be
user asking a day-to-day type question? 19 A In any case it's going to be
19 A In any case it's going to be
20 Q True.
21 A a user or a member of the project team on their
22 side.
23 Q And did you When you would get those calls would
24 you document them?
25 A That depends on the nature of the call.

		Page 53
1	Q	What type of calls would you document, and again,
2		I'm talking about these calls that you would
3		receive during this transitionary period before
4		or this transition period before the customer was
5		moved to support?
6	A	Sometimes these were e-mails so I guess by way of
7		responding to them I was documenting them and perhaps
8		cc my project manager on that.
9	Q	Okay. So you're saying that there were
10		sometimes the questions from the client would come
11		in e-mail form?
12	А	More often than not e-mail form.
13	Q	But you didn't have any type of responsibilities
14		sort of akin maybe to the trip report where you
15		were having to enter in some summary of the call
16		and what the resolution is or anything like that?
17	A	No.
18	Q	So let's say for example the client didn't send you
19		an e-mail but called you on the telephone and said
20		I'm having trouble with this application of the
21		software, can you walk me through this, and let's
22		assume for the purposes of my hypothetical that you
23		were able to do it and address the client's
24		concern; that would be the end of it and you
25		wouldn't have to write that down somewhere?

		Page 54
1	А	Correct.
2	Q	And how did you know what the transition period
3		was? Is that something that was in like a contract
4		or in the project notes?
5	А	In the project plan, when the
6	Q	In the project plan?
7	А	The date of the formal support transition was in the
8		project plan.
9	Q	So that's something that the client knew as well
10		presumably?
11	А	If they looked at their project plan.
12	Q	And the project plan was something that was shared
13		with the client?
14	A	Yes.
15	Q	Were you as an implementation specialist at Tyler
16		on location when the customer went live?
17	A	In most cases, yes.
18	Q	Was there Would there be a particular reason why
19		you weren't there in certain instances?
20	A	Size of the client, breadth of services.
21	Q	Can you think of an example of a customer where you
22		were at the customer's site when they went live?
23	A	At Clover Park School District outside of Seattle,
24		Washington.
25	Q	So had you traveled to Seattle for this?

		Page 55
1	A	Yes.
2	Q	And so you were at the school district's business
3		office when they went live?
4	А	Yes.
5	Q	How did it go?
6	A	New Year's Day.
7	Q	That's why you remember it. Did the go live go
8		smoothly?
9	А	Actually I think I traveled on New Year's Day, but
10		yeah, as smoothly as a go live goes.
11	Q	And just so that we're on the same page, go live
12		means when the customer is actually using the Tyler
13		software to perform day-to-day functions
14	A	Correct.
15	Q	and has converted from its previous system?
16	A	Correct.
17	Q	Did you Were you dispatched to the Clover Park
18		School District business office particularly for
19		the purpose of overseeing the go live process, or
20		were you there already on other implementation
21		work?
22	Α	No, specifically for the client's go live.
23	Q	What were your functions what did you do during
24		that period?
25	А	Provided support to users, any further retraining

		Page 56
1		that was necessary, working with our internal support
2		if something went wrong or wasn't right.
3	Q	Was there any other Tyler employee at the business
4		office of the Clover Park School District during
5		that time? Was the project manager
6	A	Yes, Jane was there for that that particular go
7		live, and I'm not a hundred percent sure of the name
8		of that school district. That was a long time ago
9		but I think it's Clover Park. Clover Valley,
10		something like that.
11	Q	Something outside of Seattle?
12	A	Yes. Outside of Tacoma.
13	Q	Tacoma. And were there other times when you
14		assisted with the go live process that Jane was not
15		there?
16	А	Yes.
17	Q	And then in those instances you would have been the
18		only Tyler employee at the premises?
19	A	Yes.
20		MR. MCKEEBY: Can we take a short break?
21		MS. HOLMES RAY: Uh-huh.
22		(Recess taken.)
23	BY N	MR. MCKEEBY:
24	Q	While you were employed at Tyler, Ms. Maynard, did
25		you keep track of the number of hours that you

		Page 57
1		worked?
2	А	No.
3	Q	There was no Tyler reporting system or anything
4		like that that you had to complete?
5	A	No.
6	Q	And did you do anything informally in a journal or
7		diary or otherwise to indicate the number of hours
8		that you worked during a week?
9	A	No.
10	Q	Did you ever work weekends while you were at Tyler?
11	A	I traveled on weekends.
12	Q	Any work other than travel?
13	А	If it was preparatory on a weekend for the upcoming
14		week, yes.
15	Q	That happened on occasion?
16	А	Yes.
17	Q	Do you have any estimates of the number of hours
18		that you averaged during a week at Tyler?
19	А	Averaged for the five years, 50.
20	Q	Did it change at any particular periods of time,
21		that is, I understand that the nature of an average
22		is that you're averaging different times, but were
23		there any particular let's say years where it was
24		higher or lower than 50 based on your recollection?
25	А	Yes.

		Page 87
1	A	Yes, but not out of it wasn't there was no
2		exclusivity. It was just the size of the client and
3		their requirements at the time so
4	Q	How long a period of time would that have been?
5	А	I'd say probably the last year of my employment with
6		Munis.
7	Q	And do you agree with her statement at the end of
8		that section where she says that Beth has worked
9		with me to develop new plans and schedules for this
10		client and is willing to provide suggestions for
11		making this project a success?
12	A	I'm not sure what she means by plans and schedules
13		anymore than just relaying information, X number of
14		people need to be trained, this many people need to
15		be trained on this module, so that would assist her
16		in planning a training schedule.
17	Q	And she says you were willing to provide
18		suggestions for making this project a success. Do
19		you agree with that?
20	Α	Yes, I signed it so I can't speak to what she
21		means there, but I wanted the project to be a
22		success, certainly.
23	Q	Did you When you were first hired by Tyler, did
24		you go through any type of formal training?
25	A	No.

		Page 88
1	Q	
2		were shadowing different implementation
3		spécialists?
4	A	I shadowed Jo Lamontagne for a handful of days.
5	Q	Any other implementation specialists that you
6		shadowed?
, 7	А	Not that I recall.
8	Q	Is that how you were trained?
9	Α	In addition to self-train.
10	Q	And by self-training you mean reading the manuals
11		that we've discussed to better learn the software?
12	Α	Yes.
13	Q	Why did you leave Tyler?
14	A	Didn't feel that there was a lot of opportunity there
15		for me.
16	Q	Opportunity for advancement?
17	A	Correct.
18	Q	I think you've answered a slightly different
19		question but if you'll indulge me I'm almost done,
20		but is it a true statement that during the tenure
21		of your employment, you did not complain to anyone
22		at Tyler about not being paid overtime?
23	A	I did not complain to anyone formally about being
24		paid overtime.
25	Q	Informally or formally?

		Page 89
1	A	About Specifically about being paid overtime? I
2		can't recall ever complaining to someone, no.
3	Q	Was that something during your employment with
4		Tyler that you were that you had a problem with
5		necessarily?
6	A	I guess I don't understand the question.
7	Q	I mean at the time. I mean obviously you've chosen
8		to participate in this lawsuit
9	А	Correct.
10	Q	and so you're asserting claims for overtime
11		payment
12	A	Correct.
13	Q	which contemplate a legal claim, and I guess my
14		question is did you have while you were employed
15		at Tyler, did you have a feeling that, you know,
16		hey, I should be paid overtime?
17	A	I knew I was working more than 40 hours a week.
18		Whether or not I was entitled to overtime, I was not
19		aware of that.
20		MR. MCKEEBY: Let me take a quick break
21		and see if I have anything else.
22		MS. HOLMES RAY: Okay.
23		(Recess taken.)
24	BY N	MR. MCKEEBY:
25	Q	I have a couple more questions.

		Page 90
1	А	Okay.
2	Q	What's your highest level of education?
3	А	Associates degree.
4	Q	From where?
5	Α	Northern Maine Technical College.
6	Q	Is that a four-year degree?
7	А	Two-year degree.
8	Q	When you were conducting the training that we've
9		spent a lot of time talking about at the customer
10		sites, am I correct that that was typically done by
11		yourself as opposed to side by side with another
12		Tyler employee?
13	А	Yes.
14	Q	And if you look at Exhibit 3 in front of you which
15		is your current resume, the resume at the second
16		page describes your job at Tyler; correct?
17	А	Yes.
18	Q	And it refers to it as Munis but we've discussed
19		already that that's we're talking about the same
20		thing for the purposes of the deposition; correct?
21	A	Yes.
22	Q	One of the things that it references as a duty
23		is or excuse me was aiding clients' IT staff
24		in determining system requirements. That's about
25		midway through the description. Do you see that?

1		be projects that are a little bit different from
2		one to the other
3	A	Right.
4	Q	but I'm going to talk to you at some length, as
5		you imagine, about what your job involved, and what
6		I want to know is do we need to break it up into
7		segments, you know, kind of similar to what you
8		mentioned at ATX where, you know, there was a part
9		of your employment where you were doing programming
10		duties and then you switched over to implementation
11		duties, and I know there wasn't anything that
12		dramatic at Tyler but was there if we talk about
13		your job duties, do we need to break it up like by
14		year or during other time periods, or can we just
15		talk about it generally?
16	А	Generally.
17	Q	All right. So there were no significant changes
18	A	No.
19	Q	in your job duties; is that true?
20	A	Correct.
21	Q	Okay. Let me start by asking how many days let's
22		say during an average month at Tyler would you have
23		spent at the office at Falmouth?
24	A	I'll have to back into that. We were
25	Q	Yeah.

Sixteen -- I think there was a 16 billable day goal. 1 Α There -- and 16 may not be accurate, but there was a 2 billable day goal so-. 3 If I said it was 13, does that ring a bell? Α Thirteen maybe. 5 MS. HOLMES RAY: Object to the form. 6 7 THE WITNESS: It could be. I'm not sure. 8 BY MR. MCKEEBY: 9 Okay, you're just not sure. 10 Α I'm not sure. You know there were certain requirements --11 There was a billable day goal. 12 And what constituted a -- what made a day billable 13 as opposed to non-billable? 14 Going to a client site and providing services. 15 Α So in other words, when you were at the 16 office in Falmouth, it was not a billable day? 17 Unless you were providing training via the phone. Α 18 Okay. So you said you would have to back out the 19 Q number of days that you would have spent on average 20 21 approximately at the office at Falmouth, and I think I kind of interrupted you while you were 22 maybe making that calculation and got off on a 23 tangent, but can you do that now? 24 I would say on average per month five days. 25

1	Q	And then the rest of the days were spent on the
2		road remotely at customer sites; correct?
3	A	On the road at customer sites or remotely at customer
4		sites.
5	Q	And when you say remotely at customer sites, that
6		means you would be in the office at Falmouth doing
7		remote training?
8	A	Correct.
9	Q	Whenever you did remote training, it would have
10		been from your office at Falmouth?
11	A	Yes, for until I moved to Wisconsin.
12	Q	Okay. Then you did remote training from your home?
13	A	From my home office, correct.
14	Q	What determined, if you know, whether or not you
15		did remote training versus live training at the
16		customer's site?
17	A	I don't know. Those days were told to me.
18	Q	They were told to you in the sense that you were
19		told that either you needed to be at the customer's
20		location or you were going to be doing training
21		remotely?
22	A	Correct.
23	Q	When you did the training remotely, was it WebEx
24		type training where you were using the internet?
25	A	Yes.

1	Q	And the telephone I take it as well?
2	A	Correct.
3	Q	It wasn't videoed?
4	A	No.
5	Q	And who would tell you whether or not the training
6		was remote or at the actual customer site?
7	A	Jane.
8	Q	And how would she communicate that to you, and by
9		that I mean, to be a little more specific, was this
10		something that she would tell you on a day-to-day
11		basis, did you have like a monthly calendar, or
12		some other method to tell you essentially where you
13		were supposed to be on a particular day?
14	A	We had a monthly schedule.
15	Q	And Jane prepared that I take it?
16	A	Yes.
17	Q	And so I take it that that monthly schedule might
18		have Can you think of a customer that you did
19		an example of a customer that you did training on
20		site?
21	A	Yes.
22	Q	Okay, give it to me.
23	A	Indianapolis Public Schools.
24	Q	Okay. So on this schedule there would be periods
25		of time in which you were to be at the Indianapolis

367 Valley Avenue Birmingham, Alabama (877) 373-3660 **EXHIBIT 4**
